About Batman University

Batman University was established in 2007. Batman is located in the south-east Türkiye.

In accordance with its position and motto "The University that Transforms Knowledge into Energy", Batman University took its place among Pilot Universities in the field of "Energy" within the context of "Regional Development-Oriented Mission Differentiation and Specialization Program" of the Council of Higher Education in 2021. Despite being a young university, Batman University has 11 faculties, 1 institute, 1 colleges, 7 vocational colleges, 18 research and application centers and 32 student societies. In addition to a wide range of education and research opportunities, cultural, artistic, social and sports activities are also carried out in many fields. Today, Batman University, with nearly 500 academic and over 500 administrative staff, over 13 thousand active and over 20 thousand graduate students, is a big family and continues to work toward the goal of being among the best universities both in Turkey and the world.
